## CONCURRENT RESOLUTION

Expressing the sense of Congress regarding the coverage of members of Congress under health care reform legislation.

Whereas Congress is expected to consider health care reform legislation in the near future that would offer a standard benefit package with several different options for the delivery of these benefits;

Whereas the standard benefits offered under all plans will be the same, and quality standards will apply to all plans;

Whereas consumers will have the ability to choose a plan on an annual basis, and will have access to full information about all plans so that they may make their choice based on the quality of plans and consumer satisfaction of plans; and

Whereas members of Congress should be treated the same  
and afforded the same choices as every American in the  
health care system: Now, therefore, be it

1       *Resolved by the House of Representatives (the Senate*  
2 *concurring)*, That it is the sense of Congress that any  
3 health care reform legislation approved by Congress  
4 should provide health care plans of comparable high qual-  
5 ity and that members of Congress should participate on  
6 an equal basis with all other Americans in the health care  
7 system that results from health care reform legislation.
